Reason for Recall

There is a risk that this batch of grilling cheese may contain *Listeria monocytogenes*, a foodborne bacterium that is harmful if consumed.

Health Risk Warning:

Symptoms of Listeria monocytogenes infection can include mild flu-like symptoms (such as high temperature, muscle ache, or chills) or gastrointestinal issues like nausea, vomiting, and diarrhoea. In rare cases, the infection can be more severe, causing serious complications. Vulnerable groups—including pregnant individuals, newborns, the elderly, and immunodeficient patients—are significantly more susceptible to severe illness.

What You Should Do

1. **Do Not Consume:** Do not eat, grill, or fry the affected cheese batch.
2. **Return to Store:** Please return the item to the retail store where it was purchased.
3. **Full Refund Issued:** A full refund will be provided immediately upon return. No receipt is required.
